

In-Company Accounting Training
Course ref: ICC/IFRS001CT

International Financial Reporting Standards (IFRS).

As the only provider of British professional education in the Benelux region of Europe **ICC consulting** is offering a well balanced knowledge based training in International Financial Reporting Standards (**IFRS**).

In an increasingly complex and challenging business environment, the skill and efficiency with which you handle financial reporting really matters, moreover the introduction of the **IFRS** standards means that most organisations will need to update their financial policies, processes and systems.

Programme content

Context and environment
